

Water Efficiency Standards Checklist

PROPERTY ADDRESS: _____ ACCOUNT # _____
DATE: _____

Planter Areas

- Must have 3-4 inches of mulch.
- Must have 50% plant coverage at maturity, not including trees.

Lawn Areas

- No lawn areas are less than 8 feet wide.
- No lawn in park strips.
- No lawn on slopes greater than 25%.
- No lawn used as paths.
- No obstructions in lawn areas, to the extent reasonably practicable.

Irrigation

- Drip or bubblers must be used outside of lawn areas.
- Drip must include a filter and pressure regulator.
- Separate valves for lawn and planting beds.
- WaterSense controller

Exceptions:

- Small residential lots with less than 250 square feet of landscaped area.
- Special purpose landscape areas, e.g. stormwater management areas.
- Any requirements that conflict with existing Utah law.

Additional Residential Requirements

- Lawn does not exceed 35% of the landscaped area except in small residential lots with less than 250 square feet of landscaped area.
- Central Open Shape of lawn, hardscape, groundcover plants, gravel, or mulch.
- Gathering Areas placed outside the Central Open Shape (except when no lawn).
- Activity Zones placed outside the Central Open Shape.

Additional Commercial Requirements

- Lawn does not exceed 20% of the landscaped area outside of active recreation areas.
